WHY Canada Keli

NISKU

Fabrication Facility

Nisku, Alberta

Location

1.5 ha

Yard Size

20-80 ton

Crane Capacity

60+ employees

Team

Our purpose-built **Nisku yard** delivers module fabrication, structural steel, piping, E&I support and industrial assembly services across Western Canada.

INTEGRATED EXECUTION

With engineering expertise including mechanical, piping and civil disciplines, all projects are delivered under one unified team from concept to completion.

1. Welding & Fabrication

- SMAW, FCAW, GMAW & GTAW
- Structural Steel
- Module/Skid Fabrication

2. Steel & Piping

- Piping Fabrication
- Piping Modules
- Industrial Assemblies

3. Cutting & Preparation

- Band Saw Operation
- Pipe Preparation
- Fit-up Support

4. Material Logistics

- Overhead Crane
- Forklifts/Telehandler
- Laydown Yard

5. Quality Testing

- In-house QA/QC
- CWB Certified Welders
- NDT Coordination

6. Electrical & Instrumentation

- Cable Installation
- Instrument Support
- Panel Fabrication

1611 - 8 St, Nisku, AB, Canada

LOCAL ALBERTA PRESENCE

Our Nisku fabrication facility provides service from all our core areas directly from Alberta, reducing travel costs to maximize efficiency.

STRONG SAFETY CULTURE

We exercise a COR certified, zero compromise approach in order to protect both people and the environment.

★ 40+ YEARS OF EXPERIENCE

Canada Keli is supported by the strength and resources of our parent company with over four decades in the industry.

CONSISTENT PROJECT DELIVERY

With over 50 projects completed, we have delivered fabrication, construction and maintenance projects for Canada's leading energy companies such as **COOEC Canada** and **Imperial Oil**.
